

Verona Senior Center Space Policy

It is the intention of the Verona Senior Center to be as inclusive as possible in providing space for programs and activities. In the interest of making space available for as many uses as possible at any given time, ***we reserve the right to change the room and/or location of any activity as long as we provide an alternative space.*** At no time should any activity assume privilege over any other activity nor interrupt an existing activity to claim time or space. Questions or concerns about space assignment should be brought to a Senior Center staff person for resolution.
